

13. *Notification of a Social Security Number (SSN) To An Employer for Wage Reporting—20 CFR 422.103(a)—0960–0778.* Individuals applying for employment must provide a Social Security Number, or indicate they have applied for one. However, when an individual applies for an initial SSN, there is a delay between the assignment of the number and the delivery of the SSN card. At an individual’s request, SSA uses Form SSA–132 to send the

individual’s SSN to an employer. Mailing this information to the employer: (1) Ensures the employer has the correct SSN for the individual; (2) allows SSA to receive correct earnings information for wage reporting purposes; and (3) reduces the delay in the initial SSN assignment and delivery of the SSN information directly to the employer. It also enables SSA to verify the employer as a safeguard for the applicant’s personally identifiable

information. The majority of individuals who take advantage of this option are in the United States with exchange visitor and student visas; however, we allow any applicant for an SSN to use the SSA–132. The respondents are individuals applying for an initial SSN who ask SSA to mail confirmation of their application or the SSN to their employers.

*Type of Request:* Revision of an OMB-approved information collection.

14. *Social Security Administration Health IT Partner Program Assessment—Participating Facilities and Available Content Form—20 CFR 404.1614 and 416.1014—0960–0798.* The Health Information Technology for Economic and Clinical Health (HITECH) Act promotes the adoption and meaningful use of health information technology (IT), particularly in the context of working with government agencies. Similarly, section 3004 of the Public Health Service Act requires health care providers or health insurance issuers with government contracts to implement, acquire, or

upgrade their health IT systems and products to meet adopted standards and implementation specifications. To support expansion of SSA’s health IT initiative as defined under HITECH, SSA developed Form SSA–680, the Health IT Partner Program Assessment—participating Facilities and Available Content Form. The SSA–680 allows healthcare providers to provide the information SSA needs to determine their ability to exchange health information with us electronically. We evaluate potential partners (*i.e.*, healthcare providers and organizations) on: (1) The accessibility

of health information they possess; and (2) the content value of their electronic health records’ systems for our disability adjudication processes. SSA reviews the completeness of organizations’ SSA–680 responses as one part of our careful analysis of their readiness to enter into a health IT partnership with us. The respondents are healthcare providers and organizations exchanging information with the agency.

*Type of Request:* Revision of an OMB-approved information collection.
